Why do I need this?

Competence and ENVIRONMENT matters...
As Business sustainability starts with you!

What advantage will I get?

✔ EMS AWARENESS COURSE

Enhances Understanding of ISO 14001 and Professional Boost:

This one-day training provides comprehensive knowledge of ISO 14001 requirements and helps you understand how to ensure sustainable resource management, waste reduction, and energy efficiency, supporting long-term environmental conservation and corporate sustainability goals. Additionally, it promotes professional development by opening up career opportunities across various sectors and equips you with the confidence to establish and/or contribute effectively to a company's Environmental Management System (EMS), fostering a sense of responsibility and engagement in safeguarding the environment and promoting sustainable business practices.

✔ INTERNAL AUDITOR COURSE

Develops Auditing Skills, Professional and Company Growth:

The two-days course equips you with the skills to plan, conduct, report, and follow up on internal audits, ensuring compliance with EMS standards and identifying areas for improvement. It also provides you with the competence to play a crucial role in the company's continuous improvement efforts, involve in sustainable resource management, waste reduction, and energy efficiency, supporting long-term environmental conservation and corporate sustainability goals. Additionally, it supports certification and compliance by helping organizations maintain conformity with relevant standards and prepare effectively for external audits. Also, completing an EMS Internal Auditor course enhances professional credibility and opens up career opportunities in environmental management, sustainability, and compliance roles.

✔ LEAD AUDITOR COURSE

Enhances Auditing Skills & Qualification Boost

This five-day course equips you with the knowledge and competence to audit an organization's ISO 14001-based management system as a first, second, or third-party auditor. Additionally, it qualifies you to obtain Auditor certification under IRCA's EMS Scheme and enhances your eligibility for employment with a Conformity Assessment Body (CAB) providing EMS certifications.
