ISO 9001 – QUALITY MANAGEMENT SYSTEMS LEAD / INTERNAL AUDITOR COURSE

Why do I need this?

It gives you both knowledge and competence in auditing Organisation's ISO 9001-based management system either as third or second party audit. It qualifies you as well for certification as an Auditor on IRCA's QMS Scheme and Conformity Assessment Body's (CAB) QMS and Product Certification Schemes.

What advantage will I get?

The course covers the process approach to quality management systems and auditing, the eight quality management principles, the requirements of ISO 9001 (and guidance in the accompanying document 9004), and how to plan, complete and report the audit of an entire quality management system whilst equipping you with techniques and know-how in assessing the conformance and performance of an organisations' quality management systems.

I am interested, how to get it progressed?
